 Data load failed. Resolve the problems and refresh the data. 

Refresh

-  Data catalog
-  Files and other sources

2

After loading the app, to follow along with a video, you may find the data is not linked. We can quickly fix that problem without having to leave the app.

1. Click the plus sign, in the left corner.
2. Choose ‘files from other sources’ in the drop down.

To make associations manually, you can drag one table onto another.

Employees
This table could not be loaded from the data source.
